

CAMPING DES GAYEULLES – ENVIRONMENTAL POLICY

Committed to actively contributing to the preservation of the environment and aware of the stakes involved, Camping des Gayeulles pledges to uphold its environmental policy.

ENERGY SAVINGS

- > 100% of electricity comes from renewable sources.
- > Presence detectors for lighting in most facilities.
- > Low-energy bulbs in facilities and LED bulbs for outdoor lighting.
- > 25% of hot water is produced using solar panels (3 sanitary blocks).

WATER SAVINGS

- > Sinks and showers are fitted with water flow limiters and push buttons.
- > No watering of green spaces, even in the summer.

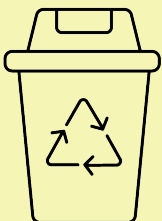

MAINTENANCE OF GREEN SPACES

- > No use of phytosanitary products.
- > Preservation of biodiversity through less intensive maintenance on parts of the green spaces.
- > Use of battery-operated maintenance equipment rather than thermal.

MAINTENANCE OF PREMISES AND CHOICE OF CONSUMABLES

- > 100% of cleaning products are eco-labelled.
- > Provision of eco-labelled consumables: toilet paper, liquid soap, certain welcome products in the city lodges.

WASTE SORTING AND VALORIZATION

- > Provision of two composters, buried selective sorting containers at the entrance of the camping.
- > Provision of 2 chemical toilet emptying stations connected to the sewage system.
